

Foster Contract

I Have a Dream Rescue Organization (IHADRO) is in constant need of foster homes for dogs while they await adoption. Foster care can be as short as an overnight stay after surgery to a longer term commitment that lasts until the dogs gets adopted. IHADRO will be happy to work with you to meet your needs and match the best dog to your situation.

IHADRO asks that the foster home provide a high quality dry kibble, appropriate home training, a soft bed, and lots of love. All medical or other needed expenses for the dog will be provided by IHADRO.

Foster families are also responsible for transporting the foster animals to various meet-and-greet events in the area and allow prospective adopters to visit the dog at your home, as well as to any needed vet appointments. The foster family's input is very valuable in deciding whether the foster dog is the right choice for prospective adopters.

If your situation doesn't allow for adoption of an animal at this time in your life, please consider fostering instead. When your foster dog goes to a forever home, breathe a big sigh for doing a job well done, and then foster another one.

Requirements

- Minimum age to foster is 21.
- IHADRO will provide all supplies unless foster parent wishes to donate. Kennel, medications, bowls, etc.
- All supplies given to foster parent are to be returned.
- IHADRO must approve ALL veterinary services. Any medical services without prior approval will not be reimbursed, including emergency care, routine care and vaccinations. You will be provided with an emergency number.
- Any injuries requiring medical care sustained by foster parent, their family and their pets from a foster animal shall be paid for by the foster parent and IHADRO will not be held liable for said medical costs.
- If you or a member of your family are bit by your foster animal please seek medical care immediately, if necessary and do your best to notify IHADRO as soon as possible.
- IHADRO cannot guarantee the health of any animal placed in foster care. Some diseases such as but not limited to ringworm, kennel cough or upper respiratory disease are contagious to your pets and in the case of ringworm to humans.
